Pankaj Sedhain

64 Heatherdale Rd, MITCHAM, VIC 3132 | 0423 417 731 | psed0002@student.monash.edu

CAREER OBJECTIVE

Enthusiastic, self-motivated IT graduate skilled at using PHP, JavaScript and React-Native to deliver the best and most reliable solutions to software issues. Seeking to work in a highly productive team where I can contribute my software engineering experience as well as my strong collaboration and communication skills.

EDUCATION

Southern Cross University, Melbourne
Bachelor in Information Technology (Software Development)

Oct 2017 - Oct 2020

Final Year Software Project:

Designed a movie search portal for a movie rental store written in PHP using MVC design and phpMyAdmin where a customer can search for movies based on genre, title or actor. As leader of a team of four, I was responsible for analysing software requirements, designing, developing and testing of the software. Successfully completed project before deadline.

Achievements:

- Achieved High Distinction in the Programming-II, Programming Mobile Systems and Cybersecurity
- Achieved Distinction in Web Development-II, Cloud Systems Development and Database Systems
- Achieved an overall GPA of 6.08 out of 7

SKILLS PROFILE

Technical Skills:

- Knowledgeable in PHP with Model-View-Controller (MVC) framework for backend acquired by making software for Craig Williams Promotions
- Competent in frontend development with JavaScript, HTML and CSS gained through making interactive websites during my university studies
- Ability to use React-Native in mobile development learned through personal projects in both Android and iOS
- Proficient in Git, including creating and managing branches to track changes to code, developed through collaborating with other developers
- Familiarity with Ionic and Cordova for mobile development in both Android Studio and Xcode achieved while completing my university studies
- Understanding of phStat in Excel for data analysis learned through completing the Statistical Analysis unit during my bachelor degree

Non-technical Skills:

- Strong verbal communication acquired through extensive debating experience in school programs
- Teamwork abilities gained by collaborating with nine other people to successfully complete daily operating tasks and meet deadlines at Hopkins Plaster Studio
- Excellent time management showcased by managing studies and part-time work concurrently while still achieving Distinction
- Careful analytical thinking developed through my years of playing chess in competitive tournaments
- Good attention to detail demonstrated while inspecting plaster castings in my role as a fibrous plasterer at Hopkins Plaster Studio

WORK EXPERIENCE

Hopkins Plaster Studio, Dandenong South Fibrous Plasterer (full-time)

Oct 2017 - Current

Key responsibilities:

- Collaborate with a team of plasterers to complete projects on time and to the client's satisfaction
- Improve team performance and safety by maintaining a clean and organized workspace
- Bring attention to detail and quality assurance to the work by thoroughly examining plaster castings for any imperfections in detailing

Craig Williams Promotions, Narre Warren Software Developer (contract)

Jan 2021 - Dec 2021

Key responsibilities:

- Developed an internal kiosk-based jukebox application for the business using JavaScript for the frontend and PHP for the backend
- Modernised legacy codebase in the jukebox for improved functionality and user experience
- Designed intuitive graphical user interfaces for the jukebox to enhance user experience
- Revised the user interface based on feedback from stakeholders and business clients
- Added internet functionality in order to incorporate YouTube videos within the jukebox
- Co-ordinated with business owners to develop an admin panel that could automatically sort files and update the jukebox database without human intervention

Achievement:

• End user experience improved evidenced by a 90% drop in customer queries on how to perform specific jukebox tasks

PROFESSIONAL DEVELOPMENT

Monash Professional Pathways, Melbourne

Apr 2023 - Current

ICT Professional Year Program

The goal of this programme is to prepare IT graduates for employment in Australia.

LinkedIn Learning Jun 2023

Phone-Based Customer Service

This LinkedIn course by Jeff Toister develops customer service and professional phone skills.

PROFESSIONAL MEMBERSHIP

Australian Computer Society (ACS), Associate member

Apr 2023 - Current

LANGUAGES

Nepali (native)

INTERESTS

- Actively participate in chess tournaments to refine strategic thinking
- Contribute to open-source projects and stay updated on technology trends
- Explore home automation with Raspberry Pi and hardware microcontrollers (Arduino IDE)
- Attend online technology seminars for continuous learning
